NEWS ANNOUNCEMENT

For Immediate Release

Webb Wheel Severe Duty Strengthens Business With Two Key Organizational Appointments

Cullman, AL (April 8, 2014) Webb Wheel Severe Duty has announced the appointments of Nate Nielsen as Director of Sales and Jeremy Zills to Manager of Engineering. These latest organizational enhancements at Webb Severe Duty are key components in the strategic plans of the business unit to focus on premium value-add brake drum solutions for severe duty applications such as transit bus, motor coach, and refuse trucks.

Nielsen transferred to Webb Severe Duty from the company's Aftermarket Business Unit where he most recently held the position of OES Strategic Account Manager. He joined Webb Wheel in 2010, following a decade of advancements in the commercial vehicle industry at PACCAR, Peterbilt and Federal Mogul. Nielsen holds a Bachelor of Science in Industrial Engineering from Mississippi State

University and a Masters of Business Administration from Trevecca University. In his new role he will primarily concentrate on delivering premium solutions focused on lifecycle costs to the U.S. and Canadian refuse industry.

Zills also transferred to Webb Severe Duty from another Webb Wheel business. Zills is an Engineering graduate of Auburn University who joined the company in 2002 as Design Engineer at their OEM facility in Tell City, IN and progressed to Senior Project Engineer II with their state of the art R&D facility in Cullman, AL. His new position with Webb Severe Duty will focus on the design and engineering of new products to meet the needs of the transit bus, motor coach and refuse truck market segments.

Both Nielsen and Zills report directly to Ken Kelley, President of Webb Wheel Severe Duty who commented “These gentlemen bring a significant amount of commercial vehicle sales and engineering experience to these positions. Nate and Jeremy’s expertise will be instrumental in our organization’s goal of remaining the leading supplier of premium value-add solutions for vocational customers.”

About Webb Wheel Products, Inc.

Webb Wheel Products, Inc., headquartered in Cullman, Alabama, manufactures hubs, brake drums and rotors for medium- and heavy- duty trucks, trailers and buses. Webb Severe Duty focuses on premium products for the transit, refuse, and motor coach markets. Webb Wheel is a Marmon Highway Technologies®/Berkshire Hathaway company. Marmon Highway Technologies (MHT) supports the highway transportation industry worldwide with a wide range of high-quality products and services.
