## **FOR IMMEDIATE RELEASE**

### **Wheel End Torque Specification Wall Chart Available from Webb Wheel Products**

Cullman, AL (February 24, 2009) A wall chart identifying the proper torque specifications for truck and trailer wheel ends is available from Webb Wheel Products. Recommended specifications are shown for 6-stud and 10-stud ball seat mounted and 8-stud and 10-stud pilot mounted disc wheel hubs; 3-spoke, 5-spoke and 6-spoke wheels; and brake drum and rotor assemblies. Having this information clearly visible in a maintenance shop can reduce wheel end service times and help train new technicians. This useful wall chart is an important addition to any heavy truck and trailer maintenance facility and can be requested by going to <http://www.webbwheel.com/aftermarket/orderliterature.html> or by calling 1-800-633-3256.

Webb Wheel Products, Inc., headquartered in Cullman, Alabama is a Marmon Highway Technologies company that manufactures hubs, brake drums, and rotors for medium and heavy-duty trucks, trailers and buses. MHT serves original equipment manufacturers, highway transportation companies and the automotive aftermarket with a comprehensive line of products. MHT companies are members of The Marmon Group, an international association of more than 125 business units that operate independently within diverse business sectors and have collective revenues of \$7 billion. The Marmon Group is a Berkshire Hathaway company
