FOR IMMEDIATE RELEASE

Webb Introduces UltraSet™ Pre-Adjusted Wheel Hubs

Cullman, Al (March 1, 2024) Webb, the brand you know and trust, has recently acquired the Stemco Trifecta pre-adjusted hub program. Webb is introducing the UltraSet™ as their replacement pre-assembled hub for On-Highway Truck and Trailer and Off-Highway/Severe Duty Truck and Trailer applications.

UltraSet hubs will be available from the Webb Aftermarket Business Unit for replacement demand on the following schedule:

- Equipment transfer from Stemco to Webb completed by the end of February 2024
- Installation, setup, and runoff by mid-March 2024
- Webb Aftermarket Business Unit will begin taking orders on April 1, 2024
- Webb Aftermarket Business Unit to ship product to customers tentatively by Mid-April 2024

UltraSet will be a complete pre-adjusted hub assembly ready to install with a simple torque-down procedure and requiring no additional bearing adjustment. Specify the Webb UltraSet hubs when choosing wheel-end components for new equipment or when purchasing replacement components from your preferred aftermarket supplier.

Webb is a trusted name in the industry. Their wide range of product availability and exceptional product quality, as well as excellent customer support and service are widely recognized by end users, OEMs and aftermarket suppliers alike.
